

Pyoderma Gangrenosum

Epi

- Rare
- Bimodal

Pathophysiology

- Inflammation
- Neutrophil Dysfunction

Rx

- Steroids (Topical, Systemic)
- Immunomodulators
(Cyclosporine)
- Biologics
(Infliximab, IVIG)

Syndrome

Painful, Pathergy, Purulent Base, Purple
Inflammation, Irregular Border
Erosions Pustule → Slight Erosion →
• LE, Peristomal, Trunk, UE

Diagnosis

Dx of Exclusion

Exam (Ulcer, Irregular)

Rule Out Labs

(RF, APLS, Cryoglobulins, ANCA)

Microscopic Evaluation

(Neutrophilic Dermatitis)

Associations

GI Disorders (Crohn's, UC)
Arthritis (RA, SpA)
Neoplasms (Solid Organ, MPN)
Genetic Predisposition (PAPA, PASH)

DDx

- Venous Stasis
- APLS
- Cutaneous Lymphoma
- Infection
